

Advanced Mentor for Teachers Programme

Mentoring teachers and school leaders throughout their careers

Pastoral mentoring is the practice of addressing the barriers or blocks a mentee is facing in their lives. Mentors look beyond the behaviours to see the underlying causes and emotional experience. They plan or support the mentee to overcome those blocks or barriers and improve their performance.

Ultimately teaching is all about our young people, however to make the difference to their lives as teachers we have to constantly strive to deal with an ever-changing landscape.

The 21st Century is bringing many changes and challenges to the education system. What was once thought of as a clear progression route for teachers has changed beyond recognition.

This has meant that education professionals are having to adapt to differing expectations being placed on them.

Support, nurture, develop

With these new requirements, many of us are facing situations new to us: different external and internal pressures. For teachers, at any stage of their career, this means new solutions are needed.

Mentoring provides the perfect solution for these challenges, allowing an experienced mentor to help a less-experienced mentee to overcome the barriers they face.

Multi-award winning training providers The Mentoring School have brought together this Programme to help teachers to mentor colleagues at different stages of their career.

Our specialist Programme helps respected professionals to:
