Presenting problems: <i>Child B is a girl, who appears to be distant all of the time. Whatever I have tried in the classroom does not help her focus on the lesson and unless there is someone sat with her whilst doing tasks, constantly keeping her on track, she will do barely any work.</i>			
Previous interventions/threshold (what have you tried, how did it go): <i>Child B currently has work differentiated to her level and is broken into stages by her 1:1 support.</i>
