# PARTNER PRICE LIST

## February 2021

# Welcome

By now it is likely that we will have spoken, if not, it is a pleasure to meet you.

I have no doubt that you share my passion for high-quality mentoring and if you are interested in delivering our courses or getting yours accredited then we look forward to working with you to set high standards for mentors.

We refer to people who deliver our courses as our partners because we believe in collaborative working. We will help to grow your business because that helps us to help more mentees and also by growing your business in turn it grows our business. We have even put in joint funding bids and tenders with our partners, we really do see this as partnership working.

Please, do not hesitate to get in touch if you need anything. I look forward to moving forward together.

# Calculating the prices

## Training Provider and Employer Pricing Calculation

## Assessor and Consultant Pricing Calculation

You pay for initial registration and then a train the trainer fee for each trainer and course.

We charge a licence fee for each learner, we cover the resources, registration and certificate fees as part of this.

Trainers are expected to deliver one course a year to maintain their trainer status. Trainers who don't will need to undergo Train the Trainer again before delivering their next course.

Annual fees can be invoiced on a monthly or annual basis, with a 3-month notice period.
